## Interactive Online Classes at DPS Gaya

DPS Gaya was one of the very first schools in the nation to have started the online classes. In its effort to make the online classes more effective and efficient, DPS, Gaya formed a core team consisting of the experienced teachers and staff along with tech savvy members. The core team framed out a structural framework of the modus operandi of the online classes.

Keeping in mind, the safety and security of the students every online class is controlled by a host .This enables the teachers to concentrate on teaching without worrying about other issues like safety, discipline, etc. These are taken care of by the host.

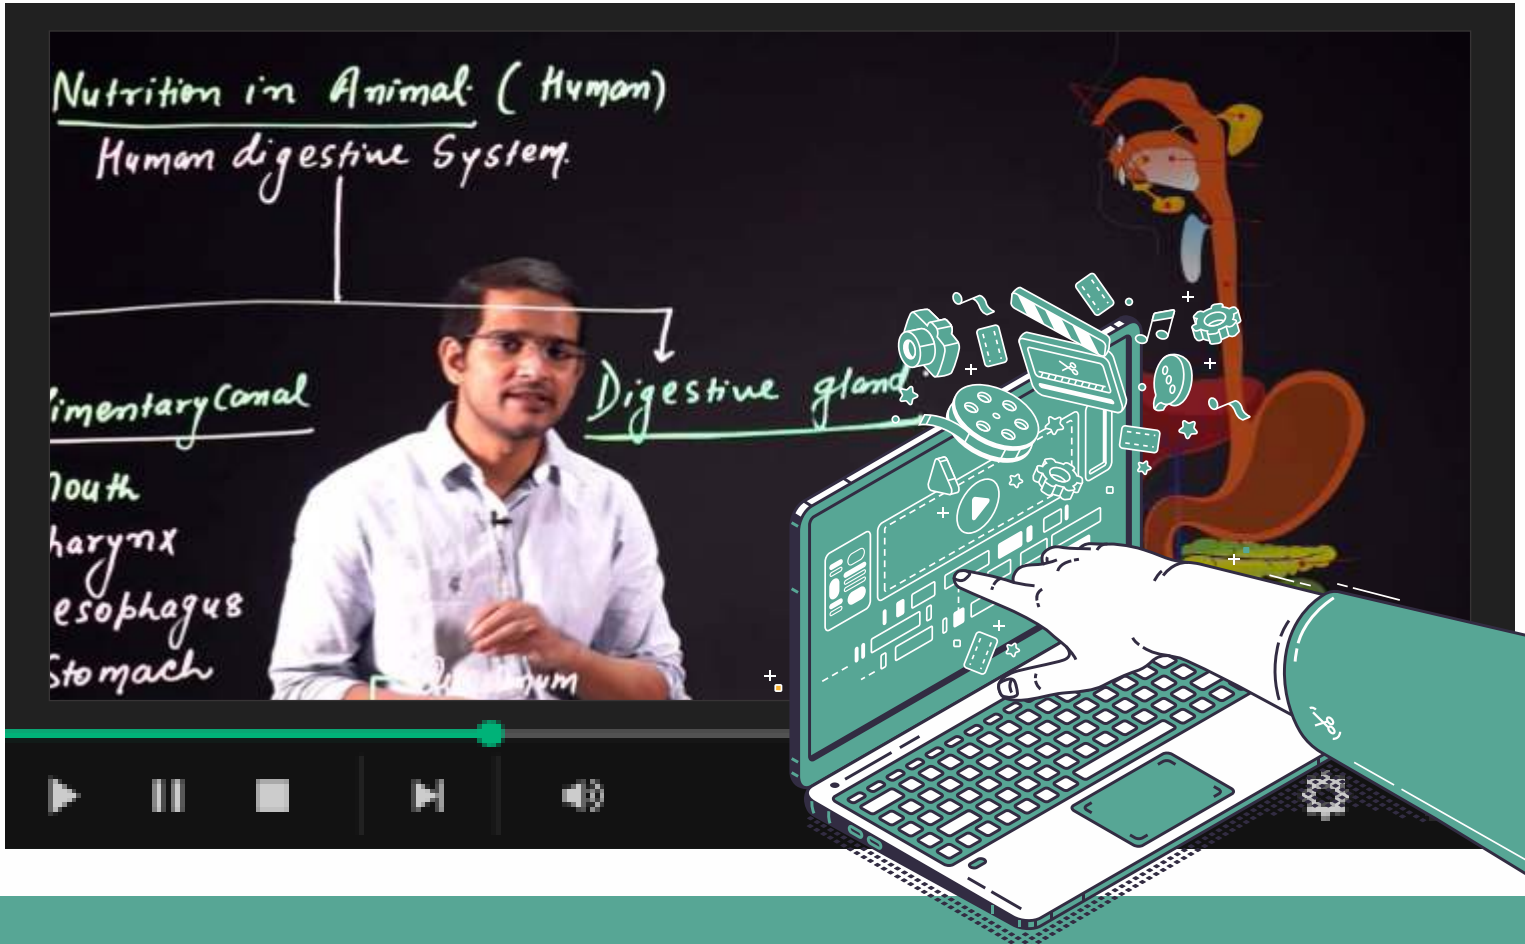

We at DPS, Gaya have installed the latest interactive technology (3D Glass Boards, TV interactive Boards ) for the dissemination of the online classes .We are also uploading highly educative interactive videos prepared by our teachers to help our students learn better.

Our journey has been immensely fruitful due to the cooperation and understanding of our parents, teachers, students, all staff and every other stakeholder.
